**Iran Has No Nuclear Weapons – Known Facts, Not News**

## The Double Standard: Iran vs. Israel

**Iran**: Signatory to the Non-Proliferation Treaty (NPT). Its nuclear facilities are inspected by the International Atomic Energy Agency (IAEA). It also signed the Additional Protocol in 2003, giving IAEA inspectors greater access. Supreme Leader Khamenei issued a **fatwa** forbidding the production, stockpiling, and use of nuclear weapons.

**Israel**: **Refuses** to sign the NPT. It **refuses** IAEA inspections of its Dimona facility in the Negev desert. It is an **undeclared nuclear weapons state**, estimated to possess **upwards of 200 to 400 warheads** at its **Dimona** facility. It openly boasts of its **"Samson Option"** : massive nuclear retaliation if the state is threatened with destruction.

**The historical record – the only nation – the only nation – that has never attacked the United States is the sovereign nation of Iran.** The United States has staged a coup, shot down an Iranian airliner, and waged an illegal war on Iranian soil in the past two years. The truth is simple: Iran has never attacked the American homeland. It is American officials covering for Israel’s secret nuclear arsenal who manufactured the fabricated "Iranian nuclear threat" to bait the nation into war. They did exactly what the Founders codified as treason in the Constitution. No more excuses. No more false equivalencies. The war did not start last year. The lies started decades ago.

---

## Conclusion: Without a Manufactured Enemy, No War Is Possible

The United States could not be dragged into war without a fabricated "enemy". The Israeli-Irgun capture network supplied exactly that.

**Without the fabricated Iranian nuclear threat, there is no war.**

The United States Intelligence Community has never – we say again, **never** – presented evidence that Iran was actively building a nuclear bomb. They presented equivocal assessments, concerns about potential risk, and intelligence about possible intent – but never the concrete fact of a deployable weapon.

Yet for Israel's undeclared nuclear arsenal – the Dimona facility – the United States Intelligence Community has maintained an "official secrets" silence for decades. Intelligence reports are suppressed. Congressional hearings are canceled. IAEA inspection requests are blocked.

**That is the capture network in operation.**

The United States Intelligence Community fabricated a daily lie about Iran to serve **a foreign power's strategic objective** – with the ultimate goal of baiting the United States into war.

**Iran did not attack the United States. Israel and the American war criminals attacked together.**

This is not merely an intelligence failure. This is **institutional capture** of the Office of the Director of National Intelligence (ODNI) and the Intelligence Community. This is **treason**.

## The Principle of Sovereignty: A Constitutional Republic Does Not Outsource Its Foreign Policy to a Foreign Power

The entire narrative of an Iranian "threat" and why American citizens must "care" about the conflict between Israel and Iran is a **complete betrayal of the sovereignty of the United States constitutional republic**.

**Iran is not America's enemy. Iran is the patsy that American officials lied about to serve a foreign power's interests – the State of Israel.**

The American people did not vote to subordinate their nation to Israel. No national referendum was held. No constitutional amendment was passed to ratify this **de facto military alliance**.

The shift was accomplished entirely by **corrupt officials**:

- **Money (AIPAC)** → buys Congress.
- **Kompromat (Epstein-Mossad)** → ensures executive compliance.
- **Technology (Unit 8200)** → infiltrates federal networks.
- **Statutes (NDAA §224, S. 4615)** → are making the captured marriage irreversible.
- **Media control (Hearst, Paramount, X)** → enforces public compliance.

Not one step of this process was consented to by the American people. Every step was accomplished in the dark, covered by active lies and propaganda.

## Why Is This Happening?

Why wage a long, unnecessary war with Iran? Why spend trillions of dollars and sacrifice thousands of young American lives?

**The answer is two-fold:**

1. **Economic**: The money is laundered back into the United States through defense contracts and Israel's Qualitative Military Edge (QME) – ending up in the pockets of the military-industrial elite. War is a business.
2. **National**: By enslaving the time and attention of the American people, forcing them to focus on a foreign power, that foreign power's objectives are placed above all else. The Iranian conflict becomes a **black hole** for American emotional energy, preventing attention from being paid to the capture network's own survival.

While Americans argue about Iranian centrifuges, **Congress is passing legislation (e.g., NDAA §224, S. 4615) designed to permanently bind United States defense systems to Israel.**

**The Iranian threat was a lie. The truth is that the United States is a hostage to a foreign power that serves only itself.**

## Final Forensic Conclusion

- **Iran does not have nuclear weapons.**
- **Iran has never attacked the United States.**
- **Israel has an undeclared nuclear arsenal.**
- **The United States Intelligence Community** knows this, yet concealed information and selectively shared fabricated concerns to serve a foreign power's objectives.
- **Without that fabricated threat, the war would not have been possible.**
- **Therefore, the war was waged not because of a real enemy, but because United States officials were captured by a foreign power (Israel).**

**The captured officials fabricated the lie about Iran. The American people were baited into an illegal war. During that war, those same captured officials passed laws transferring the entirety of United States sovereignty to the very foreign power they had been lying for.**

> There is no evidence that Iran is making a nuclear bomb. Iran has never waged war on the United States. Meanwhile, Israel is a rogue nuclear power that has succeeded, through

deception and coercion, in bending the world’s only superpower to its will and for its own purposes.

**The Constitution protects belief. It does not protect fraud. And it most certainly does not protect treason.**
